

\$300,000 Needed!

The people of South Bend are asked to contribute of their abundant prosperity \$300,000 to alleviate suffering in the city and throughout the world.

Every community has a certain percentage of families who become dependent upon the community for the real necessities of life:—food, clothing, fuel, shelter and medical attention. These people lack the ability and the courage to rise above the ordinary problems of life. Yet they are our fellow men—all children of the same Creator. It is the destiny of fate that we, the more fortunate people of South Bend, share with them a small portion of our substance.

You can show your unselfishness by contributing to the fullest extent during the week of October 13.

Your contribution will help save life.
 Your contribution will furnish proper nourishment to restore an underfed child to robust health.
 Your contribution will keep a parentless child at the Orphans' Home during '20.
 Your contribution will provide the hospital facilities for some deserving sick.
 Your contribution will feed or clothe a needy family.
 Your contribution will bring happiness to some friendless mother.
 Your contribution will further the work of the Red Cross.
 Your contribution will send aid to 6,000,000 starving Jews in Eastern Europe.

To make this Welfare Campaign a success is a community responsibility--an individual responsibility---which no citizen who loves his home, his family, his city, and his country can forsake.

GIVE ONCE FOR ALL
